Message from the President:

This year we are stepping into the next decade of our business centered on corporate spend management solutions. The past decade was full of challenges and excitements. We invested multi-millions of dollars in the design and development of

our ExpenseAnywhere® and the PcardSystem® software. We are grateful to our clients who put their trust and confidence in us, and in our products, and made us successful.

Today, more than ever before, I feel very confident of our future. The next decade for our company is going to be very exciting and full of growth, with opportunities for many. Our ExpenseAnywhere® solution has become the most known software product in the marketplace. It is therefore not surprising that we renamed our company from Virtual Communications to ExpenseAnywhere. With our recent expansion to Canada, England, and India we are now better prepared to provide 24x7 support to our global clients.

The advanced functionality available within the ExpenseAnywhere® solution enables clients to efficiently manage their expenses; easily integrate with diverse payments gateways and their ERP systems; and empowers them to instantly analyze their global spend. I am very proud of our team who work very diligently every single day and with tremendous sense of dedication and ownership to create and deliver the best-in-class solutions and services to our clients.

This first issue of our quarterly newsletter is not a day too early. We hope to use this as an added vehicle in the future to communicate and disseminate information about us and our products.

Dr. Ashok Dhar

ExpenseAnywhere® Rel. 10 Is Here: Included is an App for Your BlackBerry® and More!

The release 10 includes a number of major functional enhancements and new advanced functions that help businesses manage their T&E spending even more efficiently and effectively. Some of the features include, a totally redesigned look and feel for enhanced user experience, advanced ACH payments module, automated validation of receipt images, personal card charges module, BlackBerry® app, that empowers users to approve/ deny an employee report, as well as, instantly submit their expenses along with the pictures of the receipts, CFO dashboard for multi-nationals to instantly gain visibility on their global spend, and so much more.

With clients across US, Canada, and Europe, ExpenseAnywhere has been leading the charge on spend control by helping companies of all sizes, from small businesses to multi-nationals, and public sector enterprises, gain control on their expenses with increased operational efficiencies and reduced costs.

ExpenseAnywhere.com Has a New Look!

ExpenseAnywhere launched its new website earlier this month and we have been getting lots of positive feedback from our clients and visitors. Send your comments to remarks@expenseanywhere.com.

It took lot of effort, vision, and talent to create and organize this website. The website was created by our webmaster Shawn Rogers. Congratulations to Shawn for a job done well!

Snow Companies Rolls Out ExpenseAnywhere® Rel. 10

ExpenseAnywhere would like to welcome Snow Companies as a valued client. Located in Williamsburg, VA, Snow is a boutique agency specializing in direct-to-patient and word of mouth communications for pharmaceutical and healthcare industry.

Frustrated with the competitor's inflexible GL interface, Snow turned to ExpenseAnywhere for help. Switching to ExpenseAnywhere® allowed the company to streamline their accounting processes, and implement an extremely efficient solution, thereby dramatically reducing their operational costs.

Other important features adding to the ROI were the ability to easily track billable and non-billable expenses, and using ACH payments feature to reimburse travelers and their corporate cards.

NYSDOT Goes Live with the PcardSystem®

The New York State Department of Transportation (NYSDOT) recently went live with our web-based PcardSystem® software for automating the agency's P-card management process.

PcardSystem® is the only solution available in the marketplace for the total management of P-cards, P-card spending, and Procure-to-Pay (P2P) processes, with ability to enhance strategic sourcing and contract compliance. PcardSystem® is a comprehensive easy-to-use web-based solution that automates the entire manual process of managing the P-card spend from order log creation to verification, validation, allocation and reconciliation of charges in conformance with the organization's approval processes, practices, and policies. The system integrates with the corporate ERP system, supports level-3 transactions data, tracks disputes and supports scan/fax receipt imaging with automatic verification of receipts with the charge card data, and provides phenomenal reporting capabilities. The system empowers organizations to track their category spend; reduce risk and fraud, and enhance "Quality of Spend".

NYSDOT currently has about 400 Citibank issued P-cards in use. With the PcardSystem® in-production, the agency intends to issue more P-cards, and benefit from increased operational efficiencies and advanced capabilities to manage their P-card spend with reduced risk and fraud.

NYSDPS Uses Our ExpenseAnywhere-Gov

New York State Department of Public Services (NYSDPS) has gone live with ExpenseAnywhere-Gov. With built-in GSA per-diem reimbursement rules and NYS travel policies, ExpenseAnywhere-Gov, totally automates the entire travel voucher management involving complex multi-level, pre-and post-travel approval processes for individual and group travel. For NYSDPS, the system is integrated with receipt imaging service, Citibank travel cards, Amtrak ticketing and tracking; and with payment warrant details from the NYS- Office of the State Controller. The system automatically validates expenses with the state policies resulting in accurate and faster reimbursement for expenses. Way to go!

Up and Running...

Giant Eagle, Papa John's, Agrana Fruit Services, and TopCon Positioning Systems!

ExpenseAnywhere would like to congratulate our newer clients who have recently moved into production with ExpenseAnywhere® solution. Integrated with their respective ERP and Payroll systems, and multiple card providers, ExpenseAnywhere is helping these and other companies streamline their expense management processes and recognize substantial overall efficiencies. Welcome to our family!
