ExpenseAnywhere Integrates with Orbitz for Business

We're very excited to announce our complete seamless integration with Orbitz for Business. This integration marks a significant step in our effort to continue to deliver the best possible product and service to our customers.

With the built-in single sign-on capability, ExpenseAnywhere® and the Orbitz For Business® (OFB) travel reservations system are tightly coupled and can be easily accessed from either solution thereby providing a true end-to-end automation of the entire travel and expense management process for our mutual clients.

ExpenseAnywhere users can now easily use the most versatile and brand name travel booking solution, to easily book their flights, hotels, car rental, and make train reservations right within the ExpenseAnywhere solution. Even more exciting is that the travel itinerary data is instantly populated within the ExpenseAnywhere solution, and validated against the credit card data to automatically and intelligently create an expense report with a simple click of the mouse. No hassles!

The integrated solution is poised to make our customers' travel and expense reporting processes even more delightful, streamlined and efficient than ever before.

We are excited to make this newest feature available to all of our customers. To learn more, please contact our sales at 412.858.1111 or e-mail sales@expenseanywhere.com.

Receipt Imaging Unveiled

At the GBTA conference in Denver of August 2011, ExpenseAnywhere announced the availability of our unique Advanced Receipt Matching (ARM) Technology developed internally for automatic matching of expense receipts to expense line items. ExpenseAnywhere is the first company ever to bring this technology to the marketplace. The ARM technology provides an automatic matching of over 70% of receipts uploaded as scanned images, faxed documents, or pictures using mobile devices. The technology drastically cuts down on time spent manually matching receipts to expense items, resulting in phenomenal cost savings!

Mobile Apps Now Available

Another highly anticipated news story here at ExpenseAnywhere has been the recent release of our mobile apps for iPhone, Blackberry, and Android. The new apps will soon become available to all of our current customers and will help them to easily enter and submit on-the-go charges, take pictures of expense receipts and submit them to the online server. In the future, ExpenseAnywhere users will also be able to create expense reports, add card charges in order to complete them, and even review their reports throughout the entire reporting process — all from their mobile app. Freeing our global travelers from the wired world!

Budgeting and Auditing Modules

Finance and Accounting departments will be excited to know that we now have budgeting and auditing modules available to help your organization better manage and control corporate spending.

Centrally-Billed Travel Cards (Ghost Cards)

Also now available to our ExpenseAnywhere users is the robust Ghost card Module that empowers your organization to totally manage and reconcile centrally-billed travel card charges (aka Ghost Cards) typically incurred from travel management companies. The Ghost Card module totally eliminates the pain in manual allocation and reconciliation of such charges.

ExpenseAnywhere automates this entire process with speed and phenomenal visibility, unleashing corporate efficiency!

We Have a New Website!

As many of you may already know, we recently overhauled our website and redesigned the content in order to give it a better overall look and feel. We would like to once again thank you for your patience during our transition especially regarding the new placement of our log-in feature. If you haven't seen it yet, go check it out and tell your friends and co-workers to do the same!!

In addition to our new full version website, we've also been busy working on an abbreviated mobile version as well. Customers can look forward to being able to view this on their mobile devices in the coming weeks.

Congratulations to Our New Customers

Here at ExpenseAnywhere, it is always exciting when we bring new customers aboard. We are passionate about establishing long-lasting relationships with our clients by supplying them with the best possible product and customer support we can.

"Our goal is to provide our customers with a comprehensive solution that is totally integrated with their back-end systems and meets all their needs. We want them to be so enthusiastic about our products and services that they share it with others." - Ashok Dhar, CEO.

We are proud to announce that the following companies have recently gone live with our software:

Five Star Quality Care, Inc., Agrana Fruit, Aquatech, and Logan Aluminum.

For more information or to view press releases about our newest customers check out the news section of our ExpenseAnywhere website at expenseanywhere.com/news.

Five Star Quality Care, Inc. is a national healthcare and senior living services provider.

"ExpenseAnywhere's implementation team ensured delivery of their customized solution and roll-out occurred smoothly and on schedule."

- Zehra Abid-Wood

Aquatech is a global leader in water purification technology for industrial and infrastructure markets.

Aquatech's ExpenseAnywhere solution was customized and successfully installed in only three short months!

Logan Aluminum is a world class manufacturer of Aluminum sheet products.

ExpenseAnywhere solution was integrated with Logan Aluminum's Oracle accounting package.

Agrana is an internationally oriented Austrian company which adds value to agricultural commodities. It's three major businesses are sugar, starch, and fruit.

A long time customer of ExpenseAnywhere, Agrana recently implemented the newest edition of our expense management software package, Version 10.
