**\*Please click the above links to register for one of our webinars!!**

Having just celebrated the beginning of another new year, we at ExpenseAnywhere are excited to begin 2012 as we continue to grow our company and add a multitude of new products and features.

We would also like to take this time to celebrate our current customers, and thank you for choosing to invest in our company. We wish you all a happy and healthy 2012 as well as a continued relationship with your travel and expense management expert, ExpenseAnywhere.

### Android App, Now Available!

As many of our customers know from our last newsletter, we recently released the ExpenseAnywhere Mobile App. The App, already available for Blackberry and iPhone, is now officially available for Android phone users. Offering the same functionality that is present on the other two versions, the Android App will allow travelers to add expenses, upload receipts, and view statuses of their expense reports.

The ExpenseAnywhere Apps can be downloaded free of charge from their respective stores, but corporate subscription is required. Also, look out for additional mobile app enhancements which will be released later this quarter!

Already an app user? Let us know what you think of the app by emailing your comments and suggestions to [marketing@expenseanywhere.com](mailto:marketing@expenseanywhere.com).

### Sunshine Act/PPSA Compliance

As many of our customers are aware, January 2012 marks the beginning of the first reporting period for the Physician's Payment Sunshine Act. The PPSA will require detailed documentation as well as the electronic submission of all payments of \$10 or more made to medical doctors (or that have a cumulative value over \$100) by companies within the pharmaceutical and medical device manufacturing industries.

In anticipation for this date, we here at ExpenseAnywhere have done a great deal of research into the reporting requirements, and are prepared to help any of our customers that may require any additional assistance in order to meet the stringent requirements of the PPSA. As regulations associated with the act continue to evolve over the next few years, so will our ability to properly report any new requirements and update current client software as needed.

For more information please visit [PPSA](#) or contact us at [sales@expenseanywhere.com](mailto:sales@expenseanywhere.com) or call 412-858-1111

### 2011 Software Upgrades

Although we are always striving to improve our software, Version 10 has been a great step forward for us during 2011. We would like to congratulate those customers who have upgraded from a previous version of our software and are now using Version 10: Papa Johns and Zoll Data Systems with Oracle, Topcon and Agrana with SAP, and Giant Eagle with PeopleSoft. We thank you all for continuing to invest in ExpenseAnywhere.

### Check Out Our New Blog!

At ExpenseAnywhere, our users come first. So, we've taken an extra step to provide our end users with a place to read up on both travel and expense management related news as well as find more frequent updates about our company and how we are working to continue to make our ExpenseAnywhere system better. Please follow the link provided to take a look at our blog, and make sure to follow us for continual updates.

### ExpenseAnywhere Holiday Party 2011, Caffé Amante

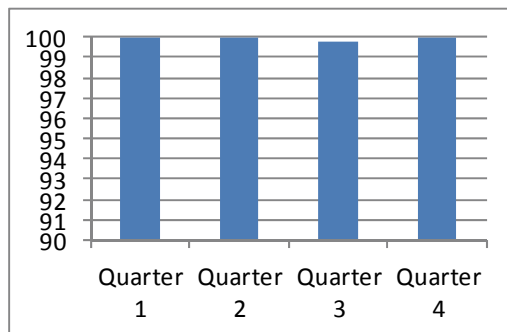

Every year, one of our favorites events is when we all get together outside of the work environment for our annual Holiday party. Employees are encouraged to bring their families along with them for a evening of great food and lively conversation. We take great pride in our employees and truly enjoy taking time to celebrate the hard work they put forth throughout the year.

### Year-End Statistics

As a provider of travel and expense management automation, accessibility is something we strive to provide to our customers. Our online solution needs to be available whenever our customers need it, which is why we are proud to announce a 2011 uptime of 99.93%. (Left)

We are also excited to announce that all of our near 800 customer support requests throughout the year have been resolved, which is over 350 less than the number of requests we supported last year. (Right)

Congratulations go out not only to our customer support team members, but also to you, our customers, for your swift adaptability and increasing knowhow of the ExpenseAnywhere system.
