Requires No User Training
Easy Navigation
No Special Software To Access

E-BUSINESS SOLUTIONS

Complete AP Automation
No Upfront Investment
Short Implementation

AUTOMATING ACCOUNTS PAYABLE PROCESSES

InvoiceAnywhere™ is a cloud-based solution that eliminates the need for a sizeable upfront investment in hardware and software. It involves a fast and easy set up process and requires minimal IT commitment from our clients. In addition to the exciting and elegant process of automating vendor invoices, it provides enhanced reporting and cash management services at a fraction of the cost of other solutions. InvoiceAnywhere is a product of ExpenseAnywhere, a global leader in integrated travel and expense management automation solutions. ExpenseAnywhere solutions are helping businesses of all sizes automate and manage expenses, from small businesses to large global companies, federal and state agencies, manufacturing and pharmaceutical companies, and colleges and universities.

InvoiceAnywhere™

Vendor Invoice Management Automation Solution

A product of ExpenseAnywhere

InvoiceAnywhere™

AUTOMATING YOUR BUSINESS WITH TOMORROW'S TECHNOLOGY, TODAY!

If your organization is like most other businesses, you are likely processing your vendor invoices using the centuries old system – paper. The more paper you receive the more people you need. It is an endless cycle of inefficient, error prone, costly manual processes! Organizations using document management systems are simply archiving the invoices. These static electronic invoice systems aren't much better than the paper systems that preceded them.

In today's competitive economic business environment, organizations must focus on:

- Reducing their invoice processing costs and increasing efficiencies associated with invoice processing and approval.
- Streamlining the AP processes for adequate cash flow and greater control over payables, thereby maintaining liquidity and sustaining business operations.
- Compressing their invoice receipt-to-approval cycles for increased interest in early payment discounts.

INVOICEANYWHERE™ AUTOMATION

100%
DATA ACCURACY GUARANTEED!

INVOICEANYWHERE™ INTEGRATION

WITH INVOICEANYWHERE™ YOUR ORGANIZATION CAN

- Reduce Invoice Processing Cost By ~ 70%
- Reduce Processing Cycle Time By ~ 80%
- Improve On-Time Payment By ~ 75%
- Improve Supplier Satisfaction By ~ 80%

AUTOMATING VENDOR INVOICE MANAGEMENT

InvoiceAnywhere™ allows for a streamlined, paperless system that ensures accuracy and improves efficiency. A built-in workflow eliminates manual data entry and routing of hard-copy invoices for approval, resulting in reduced processing costs and faster approval cycles. Integration with your corporate accounting systems and one-click management information tools instantly provides a greater visibility into spend, improves cash management, and increases ability to capitalize on early-payment discounts, all of which result in impressive return on your investment. The built-in state-of-the-art technology automates every step of the vendor invoice management from PO creation, to receipt of invoices, to payment, consistent with your company's policies. Our proprietary Advanced Recognition Technology automatically and intelligently extracts the data from vendor invoices. We guarantee 100% data accuracy. InvoiceAnywhere automatically validates the Purchase Order with the invoice, highlights deviations, and routes the invoices through the company designated workflow for cost allocation coding and approval.

Market research shows that it can cost up to \$25 to process a single paper invoice. With InvoiceAnywhere, your costs can be reduced up to 70%.

That's money in the bank!
